

Kunming Medical University

Introduction

Kunming Medical University (KMU, formerly known as Kunming Medical College) was founded in 1933 and has since established itself as the largest specialized medical university of higher medical education, scientific research and medical service in Yunnan, P. R. China. KMU has educated over 100,000 graduates since its inception. KMU has three campuses which occupies about 109 hectares. It has about 15,000 students, of which 2,811 graduate students and 6,199 staff and faculties, 1,450 professors and associate professors. KMU has over 60 foreign scholars as honorary professor and guest professor. There are 18 schools (departments), 15 affiliated hospitals with over 10,000 beds and 69 practice sites which provide a stable study and practical environment for students. Since 1998, KMU has recruited and trained graduate students, undergraduate students, advanced medical training students and Chinese language learning students from over 30 countries and regions.
